## PROJECTS

- **Lightweight DL based Sepsis Detection using IoMT (In-progress)**  
**Early Sepsis detection system | IoMT**

- **TIK-TAK-TOE**  
**Real Time tic-tak-toe game**  
[Github](#)

Developed a real-time Tic Tac Toe game using HTML, CSS, and JavaScript with WebSockets. The game allows two players to connect remotely and play against each other with instant updates to the board. Focused on ensuring smooth synchronization, minimal latency, and a clean design for an engaging multiplayer experience.

- **KISAAN**  
**E-commerce kitchen gardening website | UI/UX**  
[Github](#)

Kisaan is an e-commerce platform dedicated to kitchen gardening, with a primary development focus on delivering an exceptional UI/UX. The goal is to provide users with a highly intuitive, visually appealing, and seamless shopping experience for all their home gardening needs.
